

I am writing to express my concern about allowing new LPFM stations to take priority over current FM translators. My family has listened to FM91.1 for several years. This station is family-friendly, promotes wholesome values, and has a positive encouraging impact on my family and the entire local community. It is the only one like it available. Our friends and extended families all enjoy this station and it would be a huge loss not to have it. I feel that not having this station available would take a positive moral stand out of my community. Please do not allow this to happen in Colorado or other states that may be affected by this loss.
